

AGELANG, 29-30 APRIL 2021

All timetables are given in CET
(Central European Summer Time, UTC +2)

THURSDAY, 29 APRIL 2021

8.45-9.00	Opening session
SESSION 1: SPEECH IN HEALTHY AND PATHOLOGICAL AGING	
9.00-9.30	Marta Maffia, Massimo Pettorino & Anna De Meo Speech rhythm, age and Parkinson's disease
9.30-10.00	Idikó Hoffmann, Gábor Gosztolya, Veronika Svindt & Judit Bóna Temporal parameters of spontaneous speech based narrative recall in multiple sclerosis
10.00-10.30	Réka Balogh, Nóra Imre, Gábor Gosztolya, Ildikó Hoffmann, Magdolna Pákáski & János Kálmán Beyond words: analyzing silent segments, hesitations and irrelevant utterances in verbal fluency recordings for the detection of mild cognitive impairment
10.30-11.00	Nóra Imre, Réka Balogh, Gábor Gosztolya, László Tóth, Ildikó Hoffmann, Tamás Várkonyi, Csaba Lengyel, Magdolna Pákáski & János Kálmán Temporal speech characteristics in elderly type 2 diabetes mellitus patients - examining cognitive state through speech
11.00-12.00 KEYNOTE LECTURE: ALEXANDRA KÖNIG Automatic Speech and Language Analysis for Screening and Monitoring of Neurocognitive and Neuropsychiatric Symptoms in Elderly People	

SESSION 2: NEURAL AND LANGUAGE CHANGES IN AGING		
12.00-12.30	Nathalie Giroud The impact of age-related hearing loss on neural speech tracking	
12.30-13.00	Ishani Thakkar, Leonardo Arraño-Carrasco, Bárbara Cortés Rivera, Romina Zunino-Pesce & Carolina P. Mendez-Orellana Cortical Bilaterality and Cerebellar Involvement in Semantic and Phonological Processing with Age	
13.00-13.30	Elliot Murphy Neural dynamics of language and their developmental stages	
13.30-14.00	Antonio Benítez-Burraco & Olga Ivanova Language impairment in aging and language evolution	
SESSION 3: VOCABULARY AND SEMANTICS IN HEALTHY AND PATHOLOGICAL AGING (I)		
	Subsession 3.1.	Subsession 3.2.
16.00-16.30	Krishna Viswam, Sunila John & B. Rajashekhar Pattern of Word and cluster generation during a semantic fluency task in Malayalam-English healthy ageing bilinguals	Olga Ivanova & Azucena Penas Emotional vocabulary and phraseology in healthy speakers and speakers with dementia
16.30-17.00	Paula Méndez-Orellana, Caitlin Holme, Karina Sandoval-León, Bárbara Cortés-Rivera, Gabriela Cruz-Lezama, María Fuenzalida-Riesco, Fernanda Soto-Soto, Javiera Soto-González, Carolina Méndez-Orellana & Silvia Martínez-Ferreiro Spontaneous speech as a window to language change in healthy elderly	Kathrin Rothermich Nonliteral language processing across the lifespan
17.00-17.30	Girija P C, Nayana Narayanan & Ayshe Henna	Carmen Varo Varo

	Is senescence a detriment of metasemantics? - An analytical study	The interaction between meaning and concept: some evidence from the word-finding deficit in patients with semantic dementia
17.30-18.30 KEYNOTE LECTURE: LISE ABRAMS The Tip of the Aging Tongue: How Word Finding Problems Give Insight into Older Adults' Speech		
SESSION 3: VOCABULARY AND SEMANTICS IN HEALTHY AND PATHOLOGICAL AGING (II)		
	Subsession 3.1. (I)	Subsession 3.2. (II)
18.30-19.00	Svetlana Malyutina Lower lexical diversity in older than younger adults regardless of task demands	Ingeborg Sophie Ribu, Monica Norvik, Minna Lehtonen & Hanne Gram Simonsen Free-word associations in healthy aging and dementia
19.00-19.30	Mariya Khudyakova Effect of age on lexical diversity in three discourse genres	Karolina Lice, Ana Matić & Jelena Kuvač Kraljević Word processing abilities of persons after stroke and TBI: insights from error analyses

FRIDAY, 30 APRIL 2021

SESSION 4: GRAMMAR AND DISCOURSE IN HEALTHY AND PATHOLOGICAL AGING		
	Subsession 4.1	Subsession 4.2
9.00-9.30	Victoria Cano-Sánchez, Itziar Laka & Mikel Santesteban	Judit Bóna Self-repairs in elderly speech

The International Online Workshop on Language in Healthy and Pathological Aging

29-30 April 2021

<https://agelang.wordpress.com/>

	Prediction and ungrammaticality detection: Young versus old adults	
9.30-10.00	Willem van Boxtel Syntactic Representations Remain Intact in Aging: Evidence from Structural Comprehension Priming	Gloria Gagliardi, Daniela Beltrami, Rema Rossini Favretti, Enrico Ghidoni, Fabio Tamburini & Laura Calzà Natural Language Techniques for the early detection and the monitoring of cognitive frailty: findings from the OPLON project
10.00-10.30	Hyejin Park, Jessica Obermeyer & Eun Jin Paek Discourse Elicitation Task Effects on Verb Tense Production in Aging	Niharika Mahajan, Sonal Chitnis, Hemina Dawar, Sujit Jagtap, Poornima Karandikar & Sankar Prasad Gorthi Association of education with cognitive-communicative skills in persons with Dementia
10.30-11.00	Kayla Chapin, Natasha Clarke, Peter Garrard, & Wolfram Hinzen Alzheimer's disease and Mild Cognitive Impairment under a linguistic lens	Ana Varela Suárez Cohesion in the Dementia Discourse: A Cross-narrative Analysis
11.00-11.30	Katerina Fragkopoulou, Christina Manouilidou & Spyridoula Varlokosta Comprehension of number agreement in strong personal pronouns and clitics in Greek-speaking individuals with Alzheimer's Disease	Medha Karbhari Adhyaru, Apala Gupta, Sonal Chitnis & Sujit Jagtap Auditory comprehension abilities of Hindi speaking persons with dementia
BREAK		
12.00-13.00 KEYNOTE LECTURE: THOMAS H. BAK Language in Later Life: a Multilingual Perspective		
SESSION 5: COGNITIVE ENHANCEMENT IN HEALTHY AND PATHOLOGICAL AGING		

The International Online Workshop on Language in Healthy and Pathological Aging
 29-30 April 2021
<https://agelang.wordpress.com/>

	Subsession 5.1.	Subsession 5.2.
13.00-13.30	Brittany Blankinship & Thomas H Bak Language Changes in Later Life Multilinguals	Jelle Brouwer, Floor van den Berg Foreign language learning to promote cognitive flexibility and well-being in healthy seniors and seniors with late-life depression or mild cognitive impairment
13.30-14.00	Alessandra Vicentini, Daniel Russo, Kim Grego, Daniele Grechi The Age.Vol.A. research project: Findings from a survey on caregivers, the elderly and their families in Northern Italy	Mara van der Ploeg, Annerose Willemsen, Louisa Richter, Merel Keijzer & Tom Koole Calls for assistance in the third-age language classroom
14.00-14.30	Closing session	
14.30-15.30 KEYNOTE LECTURE: HEATHER HARRIS WRIGHT Discourse Changes with Aging: Measurement and Processes
